# PUCO Apples to Apples Electric Rate Comparison Chart
# Duke Energy Service Area

Publication Date: January 22, 2013

## Current Supplier Rate Offers

The chart below reflects the current supplier rate offers provided by the suppliers to *residential customers* in the Duke Energy service area.

Please refer to your most recent bill for your current **price to compare**.

## Price to Compare

In order for you to save money, the new supplier's rate needs to be lower than the Price to Compare rate shown on your bill. The Price to Compare is calculated based on the total amount you would no longer pay your utility company for the generation portion of your electric supply if you choose another supplier, divided by the kilowatt hours used.

The calculation determining the Price to Compare varies by utility company. As always, you will still be responsible for the utility company distribution charges and any related riders on your utility bill. Please consult the utility's web site for specific information. As with any contract, read and understand all terms and conditions before signing up with a supplier.

## Electric Apples to Apples Charts

Published offers are subject to change without prior notice. Consumers should verify offers with the supplier before signing a contract. As with all contracts, consumers should carefully read and understand all terms and conditions before signing any forms or agreeing to enroll with a supplier for electric service.

Note: The electric apples charts reflect the *most recent* available offers from marketers in each service territory, and are updated on a weekly basis.

## Using the Apples to Apples Chart

**Step 1:** Compare the supplier offers contained in the chart with the "Price to Compare" shown on your electric bill.

**Step 2:** In order for you to save money, the new supplier's rate needs to be lower than the Price to Compare rate shown on your bill.

Note: The "Tariff" code referenced in some of the Offer Details can be found on your monthly electric bill, under the charges from the utility.

*The PUCO is not responsible for selections you make based on the information contained herein.*
