Share This Page:

Publication Date: January 23, 2014

The PUCO produces the Apples to Apples charts to provide residential consumers with a snapshot comparison of current natural gas supplier price options and contract terms for individual customers. You may also want to check with your local government to see if your community has grouped together citizens into a buying pool to purchase gas. The PUCO updates the charts on a weekly basis and verifies each supplier offer to ensure accuracy. As with all contracts, consumers should carefully read and understand all terms and conditions before signing any forms or agreeing to enroll with a supplier for natural gas service. For a description of Apples to Apples chart-related terms, please refer to **Chart Definitions** .

Please be advised that if you are currently enrolled in the Percentage of Income Payment Plan (PIPP PLUS), you are not eligible to enroll with or switch to an alternate supplier.

If you are currently enrolled with an alternate supplier, and want to enroll with a different supplier prior to the expiration of your current contract, you may be subject to an Early Termination Fee.

The PUCO provides the tools you need to calculate your estimated cost. The **Self-Calculation Worksheet** that is available on the PDF version of the Apples to Apples Charts, walks you through the steps needed to manually calculate your own estimated cost. Or, you can access the **Apples to Apples Interactive Calculator** to automatically calculate your estimated costs.

## Chart Definitions

**Contract Term:** The length or duration of the contract (i.e. monthly, yearly, multiple-year).

**County Sales Tax:** When natural gas is purchased from a supplier, the natural gas is subject to Ohio sales or use tax. Because county sales tax rates vary throughout Ohio, the county sales tax is not included in the supplier's total rate. Use the attached map to determine your county's sales tax rate.

**Current Offer:** Comprised of suppliers' current commodity options and base rates, exclusive of sales tax, the local utility transportation charge or usage based charge, and customer service charges. Commodity options may be a fixed, variable, or stable rate plan.

**Fixed Rate Plan:** A constant rate for the contracted period.

**Mcf:** One thousand cubic feet; a unit used to measure natural gas usage.

**Stable Rate Plan:** A variable rate for a fixed period of time.

**Standard Choice Offer (SCO) Rate:** The SCO rate is a monthly variable rate that is based on the New York Mercantile Exchange month-end settlement price, plus a Retail Price Adjustment of \$1.00. The SCO varies each month and represents costs associated with securing natural gas for eligible DEO customers.

**Supplier Name:** PUCO-certified suppliers that are actively enrolling new customers within your local distribution company's service area.

**Supplier Total Rate:** Comprised of the supplier's natural gas commodity price and DEO's transportation rate charge.

**Total Usage-Based Charge (f/k/a Transportation Delivery Rate):** The Total Usage-Based charge or Transportation Delivery Rate can fluctuate quarterly.

**Variable Rate Plan:** A fluctuating rate within the contracted period.

**Self-Calculation Worksheet**

Under DEO's new SCO rate structure, the SCO rate is now directly comparable with the supplier rate in terms of monthly gas costs. Use the "Compute Your Monthly Gas Savings" section for a comparison. If you would still like an estimate of your monthly bill, the "Estimate Your Monthly Bill" section will provide you with an estimate based on DEO's SCO rate and the supplier rate you choose for comparison. You may also wish to visit [www.PUCO.ohio.gov](http://www.PUCO.ohio.gov) to access our interactive Apples to Apples calculator to automatically calculate your estimated monthly bill.
