Notes: Exchange boundaries maintained by the PUCO and last updated in 2012. Pursuant to Ohio Adm.Code 4901:1-6-14, R.C. 4927.12, and basic local exchange service (BLES) pricing parameters, Ohio incumbent local exchange carriers (ILEC) are unable to rebalance their BLES rates at one time due to price protections in current law. ILECs that have met a statutory competitive test are allowed to raise their BLES rates by no more than \$1.25 per year. As a result of the FCC's Intercarrier Compensation/Universal Service Fund order, a rate threshold was set for companies receiving federal high-cost support subsidies. Companies whose residential rates do not meet the urban benchmark will lose support on a dollar-for-dollar basis. Map produced on December 29, 2016.
