

Currie – Attachment C

OHIO COST STUDIES

1. Case No. 96-922-TP-UNC, Filings Approved by PUCO

Unbundled Network Elements Cost Studies

- 800 Access Service
- Access to Line Information Database (LIDB)
- Advanced Intelligent Network (AIN)
- Daily Usage Feed
- Local Switching
- Network Access Line / Service Coordination Fee
- Nonrecurring Costs for Service Ordering and Line Connection
- Operator Services/Directory Assistance (OS/DA)
- Service Provider Number Portability - Direct
- Service Provider Number Portability - Remote
- Signaling System 7 (SS7)
- Unbundled Loops
- Unbundled Tandem Switching

Interconnection Cost Studies

- Ameritech Central Office Interconnection (ACOI) aka Physical Collection
- Ameritech Virtual Optical Interconnection (AVOI) aka Virtual Collocation
- Reciprocal Compensation

Structure Cost Studies

- Pole Attachment and Conduit Occupancy Accommodations

2. Case No. 96-922-TP-UNC/00-1368-TP-ATA, Filings Pending PUCO Approval

Unbundled Network Elements Cost Studies

- Custom Routing of OS or DA via AIN for Unbundled Local Switching with Shared Transport
- Dial Tone Testing
- Emergency Number Service Access (ENSA)
- Line Sharing HFPL
- Non-Electronic Service Order Processing
- Signaling System 7 (SS7) CNAM
- Sub-Loop UNE - Nonrecurring
- ULS - Shared Transport
- Unbundled DS3 Loop
- Unbundled DS3 Sub-Loop
- Unbundled Network Elements – Dark Fiber Nonrecurring
- Unbundled Network Elements – DS3 Nonrecurring
- Unbundled Sub-Loops
- UNE – Manual Loop Qualification Nonrecurring
- UNE Nonrecurring (HFPL)
- UNE Remand Dark Fiber
- xDSL Loop Conditioning Nonrecurring

Interconnection Cost Studies

- Shared Cage Physical Collocation
- Cageless Physical Collocation
