

County 9-1-1 Planning Committee

The Ohio Emergency Services Internet Protocol Network (ESINet) Steering Committee has been tasked with providing recommendations to address the development of a statewide emergency services internet protocol network, including a review of the current funding model for this state's 9-1-1 systems.

This questionnaire was developed with input from the Steering Committee and subject matter experts seated on the PSAP Operations and Technical Standards subcommittees. It is intended to provide the Steering Committee with information necessary to develop an understanding of current capabilities and capacities of 9-1-1 services within Ohio.

Responses will be used to compile statistics detailing the number of 9-1-1 calls received by each PSAP, identify the geographic extents and populations served by each PSAP, examine expenditures made from disbursements from the wireless 9-1-1 government assistance fund, develop an inventory of and the technical specifications for current 9-1-1 hardware and software requirements and support recommendations for the transition to NG9-1-1. Your responses will be critical to the development of recommendations for a funding model to support Ohio's transition to NG9-1-1.

In addition to your response on behalf of the County 9-1-1 Steering Committee we would like to enlist your assistance as the County 9-1-1 Coordinator with making sure that each of your County's PSAP managers understand the importance of their participation in the PSAP specific Assessment and that the appropriate individuals within each PSAP are aware of this data collection effort.

The Steering Committee asks that these assessments be completed by Friday, February 1st 2013 in order to allow sufficient time for follow-up and clarification of responses by the Steering Committee. Your cooperation and timely response to this assessment will be appreciated.

1. What is the primary geographic area of responsibility for the 9-1-1 Planning Committee?

2. Please provide the name and contact information of the individual at the County 9-1-1 Steering Committee for follow-up questions.

* First name

* Last name

* Email

* Phone 1

3. What is the total population of the County 9-1-1 Service Area?

4. Please provide aggregate information for all PSAPs within the County Service Area for:

The total 9-1-1 Wireline Calls Received

2010

2011

2012 (Estimated 12 month total is OK)

5. Please provide aggregate information for all PSAPs within the County Service Area for:

The Total 9-1-1 Wireless Calls Received

2010

2011

2012 (Estimated 12 month total is OK)

6. Please provide information regarding disbursements from the Wireless 9-1-1 Government Assistance Fund for total wireless funds received for calendar year:

2010

2011

2012 (Estimated 12 month total is OK)

7. What is the breakdown of sources of funding for PSAP operations in your County?

General Fund: \$

Property Tax: \$

Property Assessment: \$

Local Phone Charge: \$

Sales Tax: \$

Other: \$

8. What is the total amount of wireless funds being held in reserve for future upgrades and/or conversion to NG911?

9. Please upload an Excel spreadsheet with the following headers for each PSAP within your County Service Area:

Headers for Excel Spreadsheet: PSAP Point of Contact, Telephone Number and Email Address

First file No file selected
